subject	FIRST/Planck - Contamination Working Group				
reference	ESA fax SCI-PT/FSC-08001, dated 13.07.2000				

Dear all,

Please find below some additional information on the working group as resulting from the input I received to the reference fax and internal discussions at ESTEC.

1. Composition of the Working Group

I propose the following composition of the working group:

- M. Anderegg (ESTEC - chair)
- P. Olivier (ESTEC - co-chair)
- A. Dragoni (LFI)
- tbd (HFI)
- H. Jacobs (HIFI)
- B. Swinyard (SPIRE)
- tbd (PACS)
- P. de Maagt (ESTEC - expert)
- J. Guyt (ESTEC - expert)
- M. von Hoegen (ESTEC - PA)

Could the instrument PM's, please confirm/provide the names of instrument members and further distribute this fax as necessary?

page 2 / 2

2. Objectives of the Working Group

The objectives of the working group were already given in the reference fax and are repeated below.

- Review the impact on instrument performance/sensitivity of contamination
- Review the Contamination Specification
- Establish Contamination budgets
- Establish Contamination Control Plan.

I would like to emphasise the importance of the input from the instrument groups on their needs and expect that we get a first set of input in the meeting. As a short term objective I would like to add that the working defines the steps that will be taken, including the distribution of responsibilities to reach the objectives within a years time.

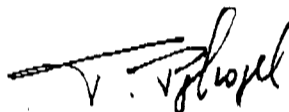

3. Working Group Meetings

In general I expect a set of meetings, e.g. every 6 weeks. Tentative dates for these meetings are: 12.09.2000, 27.10.2000, 29.11.2000, 20.02.2001, 03.04.2001, 15.05.2001.

The first working group meeting, originally foreseen for 01.08.2000, has been shifted and will now take place at ESTEC on 12.09.2000, in room Af205.

Please confirm your participation.

Best regards

T. Passvogel
