

### HERSCHEL-SPIRE(HS)

### HERSCHEL

### HERSCHEL-SPIRE(HS)

### HERSCHEL

**KEY**

- Bundled together, not electrical screen
- Twisted pair of sync. clock
- Herschel to Herschel/Spire I/F lines, drawn simplified....I/Fs are all at HS connector planes
- Flight Harness Identity

Duplicated F harness name errors fixed.

Temp. Control Thermistor and JET temp. still to sort.

Put DCU Prime above redundant 'cos fits better with diagram, amend connector sizes as suggested.
