1 INTRODUCTION

1.1 SCOPE

The purpose of this document is to define a list of documents that describe the DPU and their issue status, in order to establish a configuration control of the design (as design status) and a configuration of the actual manufactured subsystem (as built status).

It has to be noted that in some cases the document is common to the three Herschel satellite instruments (i.e. PACS, HIFI and SPIRE) and in these cases the document is DPU/ICU.... instead of simply DPU.....
