Betreff/Subj.: Instruments AIT Meeting

Dear Sirs,

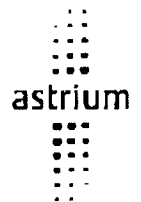

this is to confirm the Instruments AIT Meeting at Ottobrunn on 21.01.2003, from 9:00 h to 17:00 h.  
 Please use Gate 2 to check in. There you will get the exact location of the meeting room.

The meeting will be a working session. Goal is to address all important AIT relevant issues in order to get a complete overview of the AIT status/planning, to identify any open areas/critical issues and to agree on how to process/resolve them.

The following agenda is proposed

1. Introduction
2. Integration (integration sequence, MGSE interfaces, FPU's integration constraints)
3. Test Setup (EGSE and its interfaces, build standard of deliverable items)  
 Otto Bauer will present a short report of the activities status of the EGSE working group

Abs./Sender: Siegmund Idler  
Datum/Date: 18.12.2002  
Seite/Page: 2

4. Test constraints (tilting, purging, standing wave, CQM/AVM test limitations)
5. EQM/FM Testing (EMC/ESD, electrical integration check, TB/TV)
6. AOB
7. Agreement on future meetings
8. Close-out of minutes

We are prepared to extend the meeting to the next day, if there is the wish from instrument side.

As already communicated via e-mail and/or phone, SPIRE might not be able to participate. In this case the SPIRE related aspects will be discussed in the frame of the next SPIRE interface meeting at RAL in Feb 2003.

Please nominate your participants by 17.01.2003 in order to accelerate the check-in procedure.

Kind regards

**astrium GmbH**
