<div style="text-align: center;">SPIRE AVM Software Configuration Items List</div>			

1 Introduction

This note specifies the software configuration items list for the AVM test campaign. It is a top level configuration description of AVM system software and documentation.

Note: Were software application version is likely or might change before the actual test campaign, this is clearly specified.

1.1 Change record

The change record will always match the latest update of software configuration of configurable software items listed in Section 2.
