**Subject: Need date for SPIRE Warm Units during EQM, Response to AI#1, SPIRE
Telecon, 26/05/04, SCI-PT-27717**

Dear Sirs,

During the H-EPLM CDR, which took place at ASED from 21-25 June 2004, a work plan to achieve agreement on the Herschel schedule was discussed and approved.

ASP will provide instrument delivery dates and boundary conditions by mid July to ASED for input to the update of the H-EPLM schedule. The new updated schedule will be provided by ASED end of September 2004 for the Herschel/Planck System CDR.

As a consequence of this agreement it is not possible to provide need dates for the warm units at this time of the project. This closes the above referenced Action Item.

Kind regards

EADS ASTRIUM

i. V. W. Ruhe

i. A. J. Kroeker
