

RELISE NOTE FOR PACS MIB N 8.12

1. CI - configuration item number and name (from the product tree)

[PACS MIB](#)

2. Supplier name: [Milena Benedettini](#)

3. Approved by: [Otto H. Bauer](#)

4. Change descriptions from previous delivery:

(i.e. NCRs/SPRs closure, new features, changes, etc.)

4.1 NCRs/SPRs:

4.2 Changes:

- ☐ New calibration curves included or changed
- ☐ New HK parameters included, the HK packets length is changed
- ☐ New synthetic parameters have been defined
- ☐ Few Out of Limit values have been changed

5. File data:

5.1. File title & short description

(i.e. if the data includes EGSE or not, or if some data was changed by hand, or other relevant information)

[MIB_N_8_12.tar](#) contains ascii tables for the PACS Nominal unit

5.2. File type (for example compliant with MIB ICD 5.1, XML schema 3.x.x, CCS files conform to MIB ICD 5.1 + annex CCS External ICD (H-P-4-TE-ID-8020), etc.)

[Compliant with MIB ICD 5.1](#)

5.3. Version/release number (of this specific delivery)

[PACS_MIB_N_8_12](#)

5.4. Date of generation (of each file if more than one)

[10/01/2007](#)

5.5. Check sum type: [MD5](#)

5.6. Check sum value:

5.7. *List of files if more than one (i.e. MIB, CCS, etc.)*

6. Applicability:

6.1. Software version (s) applicability to this DB (i.e. the version(s) that can be associated to this DB)

PACS DPU SW v 8.44, Boot SW v2.0

SPU HLSW V12.81, Boot SW v1.4

DMC V6.010, Boot SW v1.1

6.2. Hardware applicability (i.e. unit serial number, main/redundant units, CQM, AVM or FM models etc.)

DPU AVM-2, SPU AVM, DECMEC EM, BOLC QM1 including external power supply and 28V relay, WIH EM including DECMEC internal harness

6.3. *For flight model or only for test* (describe which one for example, with different OOL, to be used on ground or in flight)

Only for test of FM IST procedures on PACS AVM hardware

6.4. *User's Manual version/issue*

DPU-SUM, PACS-CR-UM-024 v2.5

SPU-HLSW-SUM, PACS-TW-HM-002 v12.8

DECMEC-SUM, PACS-CL-SR-002 v4

BOLC-UM, Sap-PACS-MS-0616-06 Draft07

6.5. *ICD version* if any

None

7. List of reference documents (i.e. test reports, log files, inputs files, etc.)

None

8. Validation status (fully validated, or with some described limitations? only a statement here reference document can be listed in point 7)

Validated at IFSI and MPE

9. Known problems or missing data information or warnings or list of open NCRs (if any)

10. Delivery through:

email to Felix Chatte on 10/01/2007
